- Reminder: DDCI to talk to Keel at OMB; DCI to talk to Don Regan about Stevens Bill?

Public Affairs Office

- D/PAO attended a briefing at the White House by Bud McFarlane for Intelligence Committee Public Affairs Officers. The briefing was to acquaint us with the Administration's current thinking on counterterrorism and with proposed public affairs programs to enlighten the American public regarding the terrorism problem and take the heat off the Administration. Obviously, the Agency's role will be restricted primarily to whatever the DCI and the DDCI think it appropriate to say during their public or semi-public appearances, and to the Agency possibly providing unclassified material on terrorism to the White House to be included in standard material--speeches and the like--for use by Administration officials in their public appearances.

d. On 10 July, as part of its continuing Security Awareness Program, OS sponsored the appearance of Major General and Mrs. James L. Dozier in the Headquarters Auditorium. The Doziers addressed an Agency-wide audience on the topic, "International Terrorism and the Hostage Experience." The Doziers were well received as evidenced by a capacity crowd in the main auditorium with overflow viewing in two smaller auditoriums for both the morning and afternoon presentations. We conservatively estimate [ ] employees were in attendance at the two presentations.

e. On 8 July, the first contingent of [ ] Independent Contractor Special Security Escorts entered on duty. They were given a one-day EOD briefing which focused on telephone security, code of conduct for Agency employees, the hostile intelligence threat, safety on the job, security escort job requirements and procedures. The Office continues to interview [ ] applicants daily in order to meet the increasing demands throughout the Agency for escort personnel. The next group will EOD on 15 July with more groups and Special Escort Seminars to follow throughout most of August 1985. To date, approximately 600 applications have been received in response to the Headquarters Notice on this program.

f. The Intelligence Training Division/Office of Training and Education (OTE) and the DS&T prepared and distributed a catalog that describes new courses being developed for the DS&T Training Program, as well as current OTE offerings relevant to selected DS&T professionals. The catalog, which was distributed to all DS&T supervisors and managers, is an aid in the selection of appropriate training and career development opportunities for DS&T professional employees. The catalogs include information on the new courses, FY 85 and FY 86 schedules, and specific course recommendations for professional employees at various career levels.

g. OTE received word that Chief, East Asia Division (EA) has approved OTE's proposed training program for [ ] EA secretaries overseas. The first offering will be a comprehensive course that will include the best of the programs that we currently offer to our Headquarters secretaries and administrative support personnel. [ ] OTE instructors will be traveling [ ] 21 October - 2 November 1985 to conduct the program. We expect that other DO divisions will follow EA's lead in providing training for their secretaries in the field.
